SUMMARY:

Full-Stack Software Engineer with 4 years of experience developing scalable web applications using React, Node.js, Express.js, MongoDB and MySQL. Skilled in building end-to-end solutions, optimizing application performance, and designing clean, maintainable architectures. Proven ability to deliver robust APIs and responsive user interfaces while working independently and in team environments. Holds hands-on MERN stack experience along with NSDC certification.

SKILLS:

Frontend: HTML, CSS, Bootstrap, JavaScript, React.js, Angular

Backend: Node.js, Express.js, REST APIs, JSON

Databases: MongoDB, MySQL

CS Fundamentals: DSA, OOP, Problem Solving

Tools & Utilities: Git, Bitbucket, VS Code, Postman, Chart.js, Swagger, Jira

Soft Skills: Communication, Teamwork, Requirement Analysis, Time Management

WORK EXPERIENCE:

Full Stack Developer – Tata Consultancy Services (TCS)

Bangalore | Oct 2023 – Present

- Led end-to-end delivery of full stack features (React + Node.js), ensuring timely releases and reducing post deployment issues by **25%** through better testing and validation.
- Identified and resolved system bottlenecks by optimizing APIs and refining database design, achieving **30%** improvement in overall application performance.
- Enhanced code quality and maintainability by contributing to code reviews, developing reusable components, and streamlining development workflows across the team.

Software Engineer – Probe Information Services Pvt Ltd

Bangalore | Apr 2022 – Oct 2023

- Developed Scalable SPAs and RESTful APIs using React, Node.js, Express, MySQL and MongoDB.
- Improved system performance by optimizing backend queries and frontend behavior, reducing page load time by **20%** and increasing efficiency by **30%**.
- Collaborated with cross-functional teams to implement features and ensure seamless integration between frontend and backend systems.

PROJECTS:

- **MIS APP** | MongoDB, Express.js, React.js, Node.js
 - Developed a user activity analytics dashboard with interactive charts, filters, and secure admin access.
 - Optimized MongoDB queries using indexing, aggregation pipelines, and caching, improving query speed and accuracy by **30%** for faster decision-making.
- **Devportal** | MongoDB, Express.js, Angular, Node.js
 - Built a centralized API portal with secure authentication + role-based access, integrating Swagger for seamless API documentation.
 - Reduced API onboarding time by **40%**, enabling faster team productivity.
- **API activedocs** | React.js
 - Developed frontend for an internal API tool, enabling real-time API execution and response visualization.
 - Built UI components for request handling, response rendering and error management. Improving internal testing and debugging.
- **Jobyc** | MongoDB, Express.js, React.js, Node.js [Link](#)
 - Created a role-based job portal with automated email alerts for application tracking and job management.
 - Reduced manual effort by **60%**, accelerating hiring processes and enhancing recruiter efficiency.

CERTIFICATIONS:

1. Frontend & Full Stack Development Bootcamp – Coding Ninjas | [Certificate](#)
2. Backend with Node.js – Coding Ninjas | [Certificate](#)
3. React – Coding Ninjas | [Certificate](#)
4. Data Structures & Algorithms – Coding Ninjas | [Certificate](#)

EDUCATION:

Bachelor of Technology (B.Tech) – Electronics & Communication Engineering (ECE)

Jawaharlal Nehru Technological University, Kakinada (JNTUK) | 2021
